If the earnings credit is greater than or equal to the basic monthly activity fees, no service charge will be assessed and the excess deposit balance will earn interest as described in the Interest Rate Schedule. Total monthly service charges will appear as "Analysis Service Fee" on your monthly statement. The earnings credit rate will be set by us monthly based on market conditions. The earnings credit amount is based on the average collected balance (which may include a reserve requirement). Any excess earnings credits cannot be carried over to the next month.

You now have greater access to your business savings and money market account funds.

To provide more financial flexibility during this challenging time, Webster has eliminated the limit of 6 transfers-per-month on business savings and business and municipal money market accounts. This change went into effect on June 15, 2020 and will remain in place going forward as explained below.

- **Unlimited funds transfers:** The following transactions are no longer limited: preauthorized transfers, including overdraft protection; telephone transfers; and electronic transactions, including WebsterOnline transactions, Check Card payments to third parties, Automated Clearing House (ACH) transactions and wire transfers.
- **Unlimited check writing through December:** As a courtesy, we have made unlimited check writing available through the end of the year for business money market accounts. After your January 2021 statement, standard charges will apply for checks written. The standard fee is \$15 for each check cleared in excess of 6 per monthly statement cycle.

We hope this greater flexibility will help your business more easily manage cash flow. Please feel free to call us anytime at 855-468-9739, or reach out to your Relationship Manager.
