Can an HSA work for you?

If you have a high deductible health plan – through your employer or on your own – you can open a health savings account (HSA). With an HSA you save tax-free dollars to pay for IRS-qualified medical expenses.*

Why open an HSA?

- **Healthcare savings.** By using tax-free dollars to pay for eligible medical expenses you’re actually paying less than you would if you paid out of pocket.

- **Funds are yours to keep.** With HSAs, there’s no “use it or lose it” policy – even if you change jobs or healthcare plans. Unlike some other healthcare accounts, your HSA dollars roll over from year to year.

- **Earnings potential.** You can grow your health savings by keeping your funds in an FDIC-insured HSA or by investing in one of the self-directed investment options offered by TD Ameritrade and Devenir. Either way, your interest or dividends will grow tax-deferred for as long as funds remain in the account.

**Special pricing for Webster customers**

Open an HSA online at www.hsabank.com/webster to receive special Webster pricing. Or call (800) 357-6246 to speak with a Customer Assistance Center representative available 24 hours a day, 7 days a week, and mention you’re a Webster customer.
